

Dear Customer,

Thanks you for purchasing one of our download albums thru multitraxdownload.com. With this template we'll provide a few helping tools and guidelines in order to download and play the workout mixes properly. Enjoy!

Downloading the albums

All our albums are compressed to Zip-files. If you computer doesn't have the software to unzip these files please download the freeware software from the internet:

www.winzip.com

www.7-zip.org

Also very important is that you have a proper internet connection and check your firewall and virusscan settings.

Never use a tablet for download the albums as this won't work. Always use your laptop or desktop.

Itunes Template – How to play the album without the 2 second gaps between the songs

1. Select all the songs of the Album in your Itunes library

2. Right mouse click

3. Select 'show more info'

4. Window will pop up with 'info' 'video' 'sort' 'options'

5. Select 'options'

6. You see part of collection which says 'no'

7. Change that to 'yes' and your selected tracks will play without any 2 second gaps

The workout mix will play now continuously without any gaps.
